

Senior Consultant, Behavioral Science and Healthcare

VAL Health is the leading health-related behavioral science consulting firm. We apply a behavioral lens to develop strategies and actionable solutions for our clients that measurably improve health, increase engagement and lower the cost of healthcare.

WE'RE LOOKING FOR A SENIOR CONSULTANT:

- We are an incredibly talented team invested in each other's success and professional growth, working together in a casual environment that emphasizes diversity of thought and opinion among all team members.
- You are an intellectually curious self-starter who thrives in a fast paced, collaborative environment with a passion for behavioral science, healthcare and consulting

AS THE SENIOR CONSULTANT, YOU WILL:

- Make a direct impact on some of the biggest challenges facing the healthcare industry;
- Lead discussions with senior clients;
- Be a core member of the thought leadership team;
- Take ownership of project deliverables, develop work product, and act as a subject matter expert while leading other VAL Health team members to exceed client expectations;
- Get to sleep in your own bed as our teams have limited travel

WHY ADVANCE YOUR CAREER AT VAL HEALTH?

- **Impact:** You will have an opportunity to be a part of a rapidly growing organization that makes a powerful impact on health and healthcare through transformative behavioral science-based strategies.
- **Culture:** We foster inclusion and respect individuality and differences; a variety of opinions and ideas makes us all better personally and professionally.
- **Rapid Career Advancement:** You'll collaboratively set your goals and receive frequent feedback to know how you're doing against them.
- **Thought Leaders:** We offer a unique opportunity to have direct interactions with our behavioral science advisory board.
- **Top Tier Clients:** We work across the healthcare ecosystem with clients who are transforming the industry, such as UnitedHealthGroup, Verily, Sutter Health and Mount Sinai.

REQUIREMENTS:

- MBA, MPH or advanced degree preferred
- 4-8 years consulting, behavioral science or healthcare experience with a track record of taking ownership, managing multiple projects and driving results
- Lived experience that brings a unique perspective to the team
- Ability to take both an analytical and creative approach to solving problems, developing hypothesis and thoughtfully presenting recommendations
- Experience managing others
- Excellence in verbal and written communications
- A passion for health and healthcare

The Senior Consultant will be based in New York City with a hybrid approach to in-office and work-from-home. Please send cover letter and resume to Laura_Snyder@valhealth.com.
